The CD-RW drive built into Photoshop CS6 is programmable for TIFF files and JPEG 2000, a format added to the latest version of JPEG, which supports lossless, reversible compression. You can record a picture file that can store up to 16 megabytes of information and 25 megabytes of animation in the case of TIFF files, or a file with a maximum size of 250 megabytes in the

case of JPEG 2000 files. This large capacity makes it a useful feature for recording entire projects. ## Chapter Summary

We discussed the initial steps to take to prepare digital imagery for photomechanical or electronic reproduction, including the basic qualities of photography that will affect the quality of the reproduction. Then we discussed the image-editing programs available to you to correct and enhance photos. The

most common image-editing programs are Photoshop and Elements. We talked about the differences between the two and the various options available with each. We also looked at the tools available in each program and discussed their uses and differences. We also looked at other image-editing software as a supplement to Photoshop or for advanced users. ##

Q: Constraint for
NSFetchedResultsController
(Core Data) I have a
NSFetchedResultsController
which I am using to show list of
emails. I want to fetch all emails
from a specific conversation on
my device (it is user defined).
Let's say I want to fetch only
chats that have this conversation
in them (chat with id from
NSArray). I use

NSFetchedResultsController to do this: -

```
(NSFetchedResultsController *)fetchedResultsController { if (_fetchedResultsController!= nil) { return _fetchedResultsController; } NSFetchedResultsController *fetchRequest = [[NSFetchedResultsController alloc] initWithFetchRequest:[NSFetchRequest fetchRequestWithEntityName:@"Email" inManagedObjectContext:self.managedObjectContext]; [fetchRequest
```

```
setEntity:entity]; // Set sort
descriptors NSSortDescriptor
*sortDescriptor =
[[NSSortDescriptor alloc]
initWithKey:@"sent_at"
ascending:YES]; NSArray
*sortDescriptors = [[NSArray
alloc]
initWithObjects:sortDescriptor,
nil]; [fetchRequest setSortDescri
ptors:sortDescriptors]; // Set
natural ordering [fetchRequest
setFetchBatchSize:20];
[fetchRequest setFetchLimit:20];
```

```
_fetchedResultsController =  
[[NSFetchedResultsController  
alloc] initWithFetchRequest:fetc  
hRequest managedObjectContext:  
self.managedObjectContext  
sectionNameKeyPath:nil  
cacheName:@"SavedTable"]; _f  
etchedResultsController.delegate  
= self; return  
_fetchedResultsController; }
```

When I run this I have many
likes: If I move conversation's id
from NSArray to this:

```
NSFetchRequest *fetchRequest
```

```
= [[NSFetchRequest alloc] init];
NSEntityDescription *entity =
[NSEntityDescription
entityForName:@"Email" inMa
nagedObjectContext:self.manag
edObjectContext]; [fetch
```

What's New In Adobe Photoshop 2022 (Version 23.1)?

What were they thinking? VHP activist L. K. Rahaman was arrested for killing two Muslim shopkeepers in April for their alleged sale of Ram Prasad

(Ram food made from milk of a black cow). On April 14, at least eight unidentified men attacked an Ajit bakery and a fruits shop in Bishra town of Burdwan district, killing two shopkeepers and injuring two others. About 30 villagers had rushed to the spot and were beating up the shop owners on suspicion that they had killed a cow in an alleged 'black' cow-killing ritual. The victims were allegedly selling “ramprasad” made from

a 'black' cow, which is widely eaten across India. 'Ram prasad' is a popular dish in northeastern India, and made from milk of black cows. Rahaman, a VHP leader, was arrested a day after the incident. He killed the two owners at the Bishra town, where VHP activists had been demanding the arrest of another Hindu activist, Raju Maitra, arrested for allegedly killing a black cow. Rahaman was on bail, and was arrested when he

was about to board the RSS bus to attend a seminar in West Bengal. The RSS leader complained that the Burdwan police were looking for fault in Rahaman. "Why have they arrested me? The government is out to kill innocent people," Rahaman told reporters at Basudeb police station. "I have been arrested because I will not let the police arrest Mr. Maitra. I have been locked up in a police station since April 14, and there

are two more days for me to go. It is injustice being meted out," he added. Rahaman is a member of VHP-run Khetri Barrio Samaj. Note: On April 28, Prime Minister Narendra Modi will release a series of advertisements on the drought-hit West Bengal, where such attacks have become increasingly common. The advertisements will be released via television and national and regional radio programmes,

along with print advertisements in news magazines. Image: A man, who was suspected to be a cattle-smuggler, is beaten in Bengal's West Midnapore district on April 14.
