Screenshots Reviews I want to marry him! Jun 21, 2018 (Supported Devices) This works on WPA2. I bought it and tried it on my Samsung S7 Edge. Works wonderfully! The most interesting aspect of this is that it is possible to see the access points in the list of detected networks in the phone. This is brilliant as you can intercept a login without needing to be physically near the device and at that point all the information required to hack it is already on the phone. We report an unusual case of cataract surgery by laser technique for a patient with Leber congenital amaurosis. We used a standard extracapsular cataract extraction technique in this patient, and the surgical techniques were modified to permit the use of higher powers from the Nd:YAG laser and prevent damage to the retina. Despite the use of therapeutic laser powers, the surgical technique did not cause any retinal damage, and the patient achieved good results.
